List all enterprises which are linked to the applicant Undertaking as at date of application.

Linked enterprises are enterprises which have any of the following relationships with each other:

- (a) an enterprise has a majority of the shareholders' or members' voting rights in another enterprise;
- (b) an enterprise has the right to appoint or remove a majority of the members of the administrative, management or supervisory body of another enterprise;

In line with the provisions of the above quoted EC Regulation, the Undertaking is:

- **Micro**
- **Small**
- **Medium – sized**
- **GBER – Micro**
- **GBER – Small**
- **GBER – Medium-sized**
- **Start-up – Micro**
- **Start-up – Small**

If the Applicant is not registered under Chapter 386 of the Laws of Malta, please upload the legal document constituting the Enterprise under the section Checklist of Attachments as applicable.

The Applicant needs to indicate the **Size of Undertaking**. The Size of the Undertaking is based on Annex I Commission Regulation (EC) No 651/2014 of 17 June 2014. The regulation can be found [here](#). For more detailed information, one may access the online ‘**User guide to the SME definition**’ from [here](#).

Basing on the afore-mentioned regulation, users are to identify their Linked and Partner enterprises by filling in the details of each respective Linked or Partner enterprise.

- For Linked Enterprises fill in the Enterprise Name and the Registration Number (eg. C99999);
- For Partner Enterprises fill in the Enterprise Name, the Registration Number and the Shareholding % (eg. 25).

Any Linked and Partner enterprises listed in the declarations provided by the Trustee or Fiduciary are to be listed together with the other Linked and Partner Enterprises. Should one need more space where to add any Linked and/or Partner enterprises one can do so by clicking on the ‘Add another enterprise’ button under the respective tables.

In case an Applicant is an Autonomous Undertaking, the user is to insert the words ‘Not Applicable’ in the first row of the respective tables and a ‘0’ under the column ‘Shareholding %’. This will enable the proper saving and validating of data.

Then determine the size of the Undertaking by calculating the Headcount, Turnover and Balance Sheet Total of the Applicant enterprise. Follow the steps explained in the ‘**User guide to the SME definition**’.

The table below also acts as a guideline on how the Undertaking size can be determined.

Company category	Staff headcount	Turnover	or	Balance sheet total
Medium-sized	< 250	≤ € 50 m		≤ € 43 m
Small	< 50	≤ € 10 m		≤ € 10 m
Micro	< 10	≤ € 2 m		≤ € 2 m

The user is to then select **Micro Enterprise, Small Enterprise or Medium-sized Enterprise** (for applications under *de Minimis*); **GBER-Micro Enterprise, GBER-Small Enterprise or GBER-Medium-sized Enterprise** (for applications under *Investment Aid*); **Start-up-Micro Enterprise or Start-up-Small Enterprise** (for applications under *Start-up*) from the drop-down menu to specify the size of the Undertaking.

Following the completion of this segment, the user must save the application form by clicking on the ‘**Save**’ button found on the right-hand side of the screen in order to populate the drop-down function found in the next question.

It is essential for all the fields in this section to be completed for the validation to go ahead.

Provide the current organigram or description of the organization's structure to assess the applicant's operational capacity to the implementation of the investment.

Any quality standards, such as quality planning, quality control, quality assurance and quality improvement in relation to the proposed project, adopted by the applicant and provided in the application will also be considered.

Provide the operating costs of the investment for the duration of the durability.

Any documentation supporting the above, including any organigram, can be provided in Section 7.1 of the Application Form. (Max 5,000 characters).

3.5 – Project Risk Assessment

a. Identify and describe any risks that might impact the implementation of the project and indicate the probability of these risks happening.

Indicate the identified risks, the level of risk the proposed project is exposed to and the probability of these risks happening. Applicants should consider the level of complexity that the project entails. For example, applicants should take into account whether any of the equipment/activities intended to be procured shall require customisation or whether these may be available off the shelf. The introduction of complex customized products/activities will raise the implementation risk. (Max 5,000 characters)

b. How do you intend to mitigate these risks?

Describe what measures will be set up to ensure that these identified risks are minimised. Demonstrate the capacity to deliver the project and indicate whether there is a contingency plan to compensate for adverse effects on timetable, expenditure and outputs. (Max 5,000 characters)

3.6 - National and Horizontal Priorities

Confirm that the planned investment is in line with the National and Horizontal Priorities. Projects that are not in line with the National and Horizontal Priorities will not be considered eligible. In this regard applicants are asked to confirm that the answer is 'YES', and to provide an explanation to this effect.

Is this project in line with the National Priorities?

YES

NO

In the box below, please explain your above reply.

Is this project in line with the Horizontal Priorities being Environmental Sustainability and Equal Opportunities?

YES

NO

In the box below, please explain your above reply.

Confirm that the planned investment respects the National and Horizontal Priorities.

Failure to do this will render the project ineligible. Applicants are to tick 'YES' to the provided questions.

Furthermore, those projects that support the 'YES' reply with an explanation and justification of their reasoning (in the space provided), including how the planned investment is linked to and respects National and Horizontal Priorities will be rewarded. (Max 5,000 characters)

3.7 – Do No Significant Harm Principle

Confirm that the planned investment respects the conditions of the Do No Significant Harm (DNSH) principle in line with Article 17 of Regulation 2020/852.

The six DNSH environmental objectives set out in Article of Regulation (EU) No 2020/852 include: Climate change mitigation; Climate change adaptation; The sustainable use and protection of water and marine resources; The circular economy including waste prevention and recycling; Pollution prevention and control to air, water and land; The protection and restoration of biodiversity and ecosystems.

Projects that do not respect the above objectives will not be considered eligible. In this regard applicants are asked to confirm that the answer is 'NO', and to provide an explanation to this effect. Where necessary, applicants may also provide further

analysis and/or supporting documents, in a targeted and limited manner, to further substantiate their replies to these questions.

Is the measure to lead to significant harm to the six environmental objectives above?

- NO
- YES

In the box below, please explain your above reply.

When it comes to the *Do No Significant Harm Principle* applicants are asked to confirm that the answer is 'NO', thus confirming adherence to the environmental objectives. Furthermore, those projects that support the 'NO' reply with an explanation and justification of their reasoning (in the space provided), including how the planned investment is linked to and respects National and Horizontal Priorities will be rewarded.

The Measure focuses on the provision of grants for private businesses including support for new business ventures, thereby encouraging a diverse and healthier economy. Although the purchase of hardware and equipment will result in increased power consumption, this is minimised because the new system/equipment will be energy efficient. The new investment supported may be replacing less efficient assets with a view to reap operational efficiencies. Applicants will also be encouraged to incorporate possible greening and/or climate mitigation measures. Resources procured are to be resource efficient and durable.

Investments are unlikely to result in significant waste generation. Beneficiaries will be required to dispose of hardware and equipment following specific procedures to ensure that reuse and recycling will be pursued as much as possible. Disposal of replaced equipment should be in line with Subsidiary Legislation 549.89 titled Waste Management (Electrical and electronic equipment) regulations lays down measures to protect the environment and human health by preventing or reducing the adverse impacts of the generation and management of waste from electrical and electronic equipment (WEEE) and by reducing overall impacts of resource use and improving the efficiency of such use in accordance with regulation 2(2) and Schedule 5 of the Waste Regulations. Applicants may seek guidance from the Environment and Resources Authority on the appropriate disposal of WEEE products mentioned above. (Max 5,000 characters)

The investment project proposal must include a comprehensive budget breakdown. In this section, the user is to choose the activity eg. *Equipment, Plant and Machinery*, insert a sub-activity in relation to the activity, and then for each respective sub-activity one is to insert a start date and end date, describe the sub-activity, insert any comments, and define the budget in the provided fields accordingly. The total costs of the investment will be automatically calculated through the summation of costs of all the Sub-activities inserted by the user. This is further explained field by field below.

Equipment and Machinery

The items identified under this sub-activity shall be the main component of the operation. In those cases where the main component of the operations consists of various items, these are to be included as different sub-activities under this activity. Any training costs limited to the use of the specific item acquired and included in the purchase price of the item in question, and thus from the same provider shall be included in the eligible cost.

Ancillary Items

The items identified under this sub-activity shall cover any ancillary cost items to the main components of the operation. Such costs shall be capped at a maximum grant amount of not more than €10,000, or the remaining balance to the maximum scheme threshold (*whichever is the lowest*).

Lease of private operational premises

Costs for leasing of privately owned operational premises required for the operations of the Undertaking for the duration of 2 years. Such costs shall be capped at 10% of the eligible cost of the eligible cost under Equipment and Machinery. For applications under Start-ups such costs shall be capped at 20% of the eligible cost of the eligible cost under *Equipment and Machinery*.

7% Flat Rate – Indirect Costs

A 7% Flat Rate based on the total eligible cost of the other activities to be used for indirect costs. Once the first sub-activity is entered and saved, the 7% Flat Rate is automatically added to the financial plan and its value will update whenever a new sub-activity is entered.

Investment Priority (IP)

The Investment Priority (IP) that is set with the call and which is relevant to the investment will be included automatically with every Sub-activity listed.

Start and End date

The user is to insert the start and end date for the investment by choosing the dates from the automatic calendar that pops up when the field is clicked on.

In determining the earliest start date for activities, Applicants are to give due consideration to the fact that ‘start of works’ may not initiate prior to the award of the grant, i.e. signing of the Grant Agreement. The signing of the Grant Agreement may only take place following the conclusion of the evaluation process of the applications received by the cut-off date. Operations should be concluded by 30th June 2029.

If an activity is saved to the financial plan with an incorrect date, the user should delete the activity from the financial plan and re-enter the activity with the correct data.

Description of the Activity/sub-activity

Describe the specific sub-activity and define the category of that item to ensure easier reference to supporting documents including the respective specifications and quotations provided.

Comments

If the Applicant does not have any comments, then 'Not Applicable' is to be inserted.

In this section, the user should specify the costs (in EUR) in the fields provided. Users should note that the amounts entered should not contain any characters such as 'comma' but only figures, so that for example an amount of '€20,000' would be simply entered as '20000'.

The '**Eligible**' costs are to be inserted in the respective field. The VAT for both eligible and non eligible costs is to be invariably inserted in the '**VAT Non Eligible**' field.

The '**Non Eligible**' costs indicated under this section need to reflect any expenditure (excluding VAT) related to that Sub-activity but which is ineligible for funding as specified in the scheme Guidance Notes.

On the other hand, if an address in Gozo was provided, the user will need to fill out both the 'Total Financial Plan' section and the 'Gozo Financial Plan' section with the same information.

When all information has been inputted, click on the 'save' button at the bottom of the screen. Once the details have been saved, these will show up at the top part of the Financial Plan and additional Sub-activities can then be added by using the same process.

When adding activities to the financial plan, Applicants are to keep in mind that these should be itemized. Sub-Activities should not be batched together under one activity, instead the Applicant should create an Activity for every Sub-Activity that one intends to include in the financial plan.

 - *The provision of a Letter of Intent/Sanction Letter issued by a bank (identifying the amount of lending that the bank is willing to lend); or*

A detailed investment proposal that as a minimum, shall include the following:
 - **Description of the needed investment**
 - *Describe the item's function within the operations and, in brief, the need for its purchase.*
 - **Technical specifications for each specific investment;**
 - *These are intended to provide a baseline for comparability. The product/model may well be distinct, but it should nonetheless be possible to have a common denominator when it comes to amounts/size/capacity/output/material etc. The minimum technical specifications do not necessarily need to be an absolute value (e.g. table with 1.5m in length). It can be a range (e.g. 1.2-1.6m length), or a lower or an upper boundary (e.g table with length of minimum/maximum 1.5m). While not intended to be overly specific, and allowing for some leeway, the applicant nonetheless needs to outline what they are looking for in the item for which aid is being requested.*
 - **Description of what is available on the market;**
 - *There may be off-the-shelf solutions, or a completely custom-made solution is required, or a hybrid of the two can fulfil the applicant's needs. Whichever applies, the applicant is to outline which different versions or brands for the item exist on the market at present.*
 - **Identification of which suppliers offer the required investment and the price range- for each investment;**
 - *For items which have a broad range of suppliers, it is naturally expected that the market leaders are included within the list of options considered, and that the list of suppliers is sufficiently large accordingly (e.g. one*

cannot justifiably list just 3 suppliers of laptops, because the local market alone includes many more than 3 suppliers). A price range can be provided for the item itself, rather than by specific supplier. One is to ensure that an explanation is provided in instances where the price range is broad

- ***From the options considered, those that meet targets and requirements of the applicant should be identified.***
 - *If all the suppliers mentioned in the above section are considered as meeting the applicant's needs, then this is to be explicitly mentioned. If any don't, then a substantive and reasonable justification thereof is to be provided accordingly.*
 - *Provide brief background information on each of the suppliers identified provided, together with their website URL and/or online link of each.*

- **Technical Specifications and Quotations** (limited to 3 distinct items and multiples thereof) –
 - *The set of minimum technical specifications against which the quotations provided were sought. These should determine the minimum characteristics of the equipment, plant and machinery identified by the beneficiary, and that a supplier must provide. These should be clear, accurate and contain a description of the beneficiary's needs to enable the suppliers to provide the asset/s which meet those needs; and*
 - *Submit at least 3 similar quotations in respect of each sub-activity in line with the set minimum technical specifications and obtained from three different external and unrelated suppliers to the applicant. Quotations not meeting the requested technical specifications may not be considered by the beneficiary.*
 - *Brief background information on each of the suppliers identified provided, together with their website URL and/or online link of each.*

It is the responsibility of the Applicant to ensure that **all** the necessary documents are included under this Section. For ease of reference a checklist has been provided in the application form.

After accessing the relevant uploading Section, titled 'Checklist of Attachments', the application form displays an information table containing details of the type of **document**, the name of the **uploaded file**, a '**Choose File**' button, a '**View**' button and a '**Remove**' Button.

When uploading files, Applicants need to ensure that no commas (,) are in the file name.

In order to upload a file, the User must click on '**Choose File**' following which, he/she will be prompted to select the file to be uploaded.

When the file is chosen (and the User clicks on ‘Open’) the system returns to the uploading screen. It is important to point out that at this stage the file is still not uploaded in the system. In order to upload the file in the system the User will need to click on the ‘**Save**’ Button (on the right of the screen).

At this stage the User may opt to either continue inputting other documents (by clicking on the relevant ‘**Choose File**’ buttons in the other rows), viewing the document (by clicking on the ‘**View**’ button) or removing the document (by clicking on the ‘**Remove**’ button).

The User will have the option to also upload documents which are not listed in the information table. This can be done by clicking the ‘Add another document’ button beneath the previously mentioned information table. On clicking such button the User will be prompted to choose a document to be uploaded.

Once selected, the document name will appear adjacent to the ‘Choose File’ button (as shown).

At this stage the document is not actually uploaded to the system. This will take place only when the ‘Save’ button is selected. Before the application form is saved, the User can click on the ‘Remove’ button and the selected file will be removed (without being saved). Alternatively, clicking on ‘Choose File’ will allow the User to select another document which will replace the one previously selected.

Once the User is satisfied that the correct document to be uploaded has been selected, the applicant may proceed with saving the application form (following which the document will be uploaded). The User will know that the upload has been successful because the document will appear as ‘Other’ in the information table. There is no limit on the number of ‘Other’ documents that can be uploaded in the system.

Once the application is fully validated, one may submit the application. Once an application is submitted an email will be received with the application number. This is to be retained by

the Applicant together with the original Declaration Form and a copy of the Application for future reference.
