

## INTERREG Europe Programme 2014-2020

### First call for project proposals

Specific Objective	Name of Project	Maltese partner	Project Summary Description	Project Dates		Project Budget		
				Start	End	ERDF 85% / 75%	National 15%	Total
2.1 Improving SMEs competitiveness policies	Destination SMEs	Ministry for Gozo	This project aims at improving public policies dedicated to the support of tourist SMEs and their competitiveness through the creation of a management strategy of the territories addressed by means of this project.	01/04/2016	30/06/2021	€177,200.35	€31,270.55	€208,471.00
3.1 Improving Low-Carbon Economy Policies	ZEROCO2	University of Malta	This project focuses on the energy performances of buildings; in this regard, it intends to design state-of-the-art policies promoting near zero CO2 emission buildings. This project shall also combine different technologies and energy efficiency sources, contributing towards the EU energy efficiency targets.	01/04/2016	31/03/2023	€156,898.10	€27,687.90	€184,586.00

### Second call for project proposals

Specific Objective	Name of Project	Maltese partner	Project Summary Description	Project Dates		Project Budget		
				Start	End	ERDF 85% / 75%	National 15%	Total
1.2 Improving Innovation Delivery Policies	RELOS3	Malta Enterprise	RELOS3 "From Regional to Local" project proposes an innovative approach of the Smart Specialization Strategies (S3) deployment by involving local authorities and subregional actors. The project will focus on specializations connected to industrial systems, advanced manufacturing and industrial applied design and ICT specializations.	01/01/2017	31/12/2021	€94,463.05	€16,669.95	€111,133.00
2.1 Improving SMEs competitiveness policies	Design 4 Innovation	Valletta Cultural Agency	The project Design4Innovation will support governments to integrate design into existing ERDF policy instruments to leverage competitiveness in SMEs and to develop, implement and monitor Design Action Plans.	01/01/2017	31/12/2022	€196,044.00	€34,596.00	€230,640.00
2.1 Improving SMEs competitiveness policies	Innova Foster	Malta Enterprise	Malta Enterprise through this project intends to improve the existing measures related to strategic investment and support of SMEs. Such measures will assist to stimulate SMEs to consolidate their operations as well as venture into new developments amongst others networking and clusters. This also leads to increased flexibility, resources, expertise, cost reduction and economies of scale.	01/01/2017	31/12/2020	€140,501.60	€24,794.40	€165,296.00
3.1 Improving low-carbon economy policies	SUPPORT	Gozo Regional Committee (GRC)	SUPPORT project aims to improve the coordination and performance of policy instruments intended for implementation of national and regional energy efficiency programmes at local level. The Maltese partner in this project will be focusing on supporting Gozo in achieving the status of "ecoisland" by 2020 by promoting and implementing projects on topics related to clean energy and fostering the shift towards low carbon strategies.	01/01/2017	31/06/2020	€121,903.60	€21,512.40	€143,416.00

3.1 Improving low-carbon economy policies	ENERSELVES	Malta Intelligent Energy Management Agency (MIEMA)	The overall objective of this project is to promote new policies, or improvement of existing policies, to support the integration of RES in buildings for selfconsumption funded by Structural Funds and other EC tools.	01/01/2017	31/12/2022	€228,276.00	€40,284.00	€268,560.00
3.1 Improving low-carbon economy policies	Prometeus	Transport Malta	PROMETEUS project focus on electromobility. Electromobility is one of the priorities within EU policies being a sustainable, low carbon alternative for transport. The Prometeus project partnership intends to address the main barriers related to electromobility which include poor availability of dedicated infrastructures and low user awareness	01/01/2017	30/06/2020	€237,277.50	€41,872.50	€279,150.00
4.2 Improving resource-efficient economy policies	Cocoon	Wasteserv	This project focuses on the policy of landfill management (Lfm). Although many EU regions are already implementing Lfm, no targeted specific European Lfm legislation currently exists. Therefore, the COCOON objective is to develop, integrate and improve relevant policy instruments, while increasing subsidies through operational programmes (OPs) for Lfm projects. COCOON brings together distinct EU regions to share and capitalise on regional good practices.	01/01/2017	31/12/2021	€62,516.65	€11,032.35	€73,549.00
		Environment and Resource Authority (ERA)				€70,131.80	€12,367.20	€82,508.00
4.2 Improving resource-efficient economy policies	GPP4Growth	Malta Regional Development and Dialogue Foundation (MRDDF)	GPP4Growth project partners intend to exchange experiences and practises on the use of green goods and services and of promoting their sustainable production and consumption. Following this phase the project partners will work on improving resource efficiency policies that promote eco innovation and green growth through Green Public Procurement.	01/01/2017	31/12/2022	€176,581.50	€58,860.50	€235,442.00

Third call for project proposals

Specific Objective	Name of Project	Maltese partner	Project Summary Description	Project Dates		Project Budget		
				Start	End	ERDF 85% / 75%	National 15%	Total
4.2 Improving resource-efficient economy policies	WINPOL	Environment and Resource Authority	The WIN-POL project aims at improving policies for waste management mainly by promoting the use of intelligent equipment and systems for waste disposal. In this project, ERA will be investigating intelligent waste systems with a particular focus on the local scenario, which is mainly dependent on landfilling.	01/06/2018	31/12/2022	€59,495.75	€10,499.25	€69,995.00
4.2 Improving resource-efficient economy policies	Threet	Planning Authority	The ThreeT project seeks to protect and enhance natural and cultural heritage sites by setting up thematic trails or improving existing ones, making them accessible through green modes of transport and readily available information.	01/06/2018	31/12/2022	€185,835.50	€32,794.50	€218,630.00

4.2 Improving resource-efficient economy policies	AQUARES	Energy and water Agency	The AQUARES project will focus on utilising the public sector's role in regulating the water market and promoting wastewater treatment. The project will support eco innovation with regard to water reuse, so as to improve the overall efficiency of water supply, distribution and treatment.	01/06/2018	30/06/2023	€153,708.90	€27,125.10	€180,834.00
---	---------	-------------------------	--	------------	------------	-------------	------------	-------------

Fourth call for project proposals

Specific Objective	Name of Project	Maltese partner	Project Summary Description	Project Dates		Project Budget		
				Start	End	ERDF 85% / 75%	National 15%	Total
3.1 Improving low-carbon economy policies	E-BussED	Ministry for Gozo	E-BussED supports the transition of European regions towards low carbon mobility and more efficient public transport. It promotes the uptake of e-buses in new regions and supports the expansion of existing e-fleets. E-BussED project contributes to the Interreg Europe programme Specific objective 3.1 "Improving low-carbon economy policies" by encouraging regions to develop and deliver better policies related to the deployment of e-buses. The project also facilitates the integration of electricity production based on renewables and low carbon electrified public transport. Through new ideas and better policies, the project promotes both the demand and supply side of electricity from clean renewable sources and the subsequent transitioning towards a low carbon economy.	01/08/2019	31/01/2023	€117,036.50	€20,653.50	€137,690.00
1.2 Improving innovation delivery policies	INTENCIVE	Ministry for Gozo	The objective of this project is to improve the implementation of policies and programmes in terms of health technology innovation-driven and customer-oriented health services in the partner regions and influence the ERDF regional OPs or Regional Strategies.	01/08/2019	31/07/2022	€93,744.80	€16,543.20	€110,288.00
3.1 Improving low-carbon economy policies	RESINDUSTRY	Ministry for Gozo	RESINDUSTRY aims to increase the energy independency of the EU industry sector, by decreasing its energy intensity through a higher integration of RES. The long-term objective is to increase the industry competitiveness by decreasing its energy bill, rising their energy independency, thus uncoupling their energy costs from geopolitical externalities.	01/08/2019	31/01/2023	€170,212.50	€30,037.50	€200,250.00
<b>TOTAL</b>						€2,441,828.10	€525,835.00	€2,967,663.10
