Inter-Ministerial Consultative Committee on EU Funds 2021-2027

Future Meetings & Agendas

20th September 2023

Co-funded by
the European Union

Coordination: Strategic Level – Future Meetings & Agendas

Coordination between funds under the PA, other EU funds, national funds

1. Discuss validity of information in PA, Programmes, at implementation stage, eg: discuss deviations from types of actions foreseen under different funds – **MAs to explain how types of actions translated into projects and report by sector.**
2. Discuss complementarity of funding in current, revised national policies – **Ministries/responsible entities to update on the implementation of foreseen nationally funded actions in budget, policies.**
3. Bodies responsible for direct funds/implementing entities to provide updates on multiannual plans, workplans such as Health strand under ESF+, Horizon Europe, Life, Erasmus, InvestEU, CEF etc.

Only cover funds which are referred to in the PA or one or more of the plans/programmes.

Future Meetings

IMCC – 2023, 2025, 2027

Sub-Committees (as required, including bottom up):

- By theme/sector;
- Technical level;
- MAs, Ministries, Other stakeholders as necessary;
- Focusing on initiatives at types of actions level; and
- Reporting back to the IMCC, through meetings/in writing
- First sub-committee to cover: water, biodiversity and maritime transport, where possible overlaps identified

Demarcation: Strategic Level - Future Meetings & Agendas

Demarcation between **Programmes**: set by actions under different plans/programmes

1. Discuss overlaps in terms of types of actions covered under different Funds.

A) **Water**:

- Water actions may be financed under ERDF, CF and CAP SP.
- Demarcation is at intervention level:
 - **ERDF: Wastewater** plants and network;
 - **CF: Potable water** plants and network;
 - **CAP: New water** network in rural areas.
- **Possible overlap**: definition of rural under ERDF and CAP is different- the same area may be considered urban under ERDF and rural under CAP- for wastewater/new water actions, further demarcation by the MAs is **required**.
