## Definitions

**Aid intensity** means the gross aid amount expressed as a percentage of the eligible costs, before any deducted tax or other charge.

**Date of granting of the aid** means the date when the legal right to receive the aid is conferred to the beneficiary, being the date of the signing of the Grant Agreement.

**Operation** means an initial investment project being proposed for part-financing through Call/s under this State aid scheme.

The **Start Date** is identified in the Grant Agreement signed between the IB and the Beneficiary. Start of works on actions in relation to the activities for which assistance is being requested may only be initiated after the date of the granting of the aid.

The **End date** is identified in the Grant Agreement and by such date the Beneficiary must ensure the following:

- The Investment has been procured, delivered and is fully operational
- All expenditure has been incurred, invoiced and fully paid
- All relevant licences are in place

**Any expenditure incurred, invoiced or paid after the project end date will be considered as ineligible.**

The **Authorised Representative** is the person identified in the application form who is entrusted to legally represent the Enterprise and is thereby authorised to enter into agreements and sign contracts for and on behalf of the Enterprise. In the case of Sole Traders/Self Employed person, this should invariably be the beneficiary.

The **Project Manager** is identified in the application form and is the person responsible for the implementation of the project on a day-to-day basis.

**Economic activity** – means an activity consisting of any one or more of the following:

- any trade, business, profession or vocation and the provision of any personal services;
- the exploitation of tangible or intangible property for the purpose of obtaining income there from on a continuing basis;
- the provision by a club, association or organisation of the facilities or advantages available to its members for a subscription or other consideration;
- the admission of persons to any premises for a consideration.

**Initial investment means:**

- (a) an investment in tangible assets related to the setting-up of a new establishment, extension of the capacity of an existing establishment, diversification of the output of an establishment into products not previously produced in the establishment or a fundamental change in the overall production process of an existing establishment; or

- (b) an acquisition of assets belonging to an establishment that has closed or would have closed had it not been purchased and is bought by an investor unrelated to the seller and excludes sole acquisition of the shares of an undertaking.

**Productive investments** should be understood as investment in fixed capital or immaterial assets of enterprises, with a view to producing goods and services and thereby contributing to gross capital formation and employment.

**External source** means a source that is autonomous and unrelated to the Beneficiary Undertaking.

**Unrelated to the Beneficiary** – the fact that the buyer does not control the seller is not sufficient for fulfilling this criterion. The parties must be unrelated. For that, there should be no influence (decisive or not) on the composition, voting or decisions of the organs of an Undertaking.

**Undertaking** means a **Micro, Small or Medium-Sized Enterprise** as defined in Annex I of Commission Regulation (EU) No 651/2014 of 17 June 2014 declaring certain categories of aid compatible with the internal market in application of Articles 107 and 108 of the Treaty as amended.

<https://eur-lex.europa.eu/legal-content/EN/TXT/?uri=CELEX%3A02014R0651-20230701>

The main factors determining whether an enterprise is an SME are:

- **staff headcount** and
- either **turnover** or **balance sheet total**.

Company category	Staff headcount	Turnover	or	Balance sheet total
Medium-sized	< 250	≤ € 50 m		≤ € 43 m
Small	< 50	≤ € 10 m		≤ € 10 m
Micro	< 10	≤ € 2 m		≤ € 2 m

- (b) one enterprise has the right to appoint or remove a majority of the members of the administrative, management or supervisory body of another enterprise;

(c) one enterprise has the right to exercise a dominant influence over another enterprise pursuant to a contract entered into with that enterprise or to a provision in its memorandum or articles of association;

(d) one enterprise, which is a shareholder in or member of another enterprise, controls alone, pursuant to an agreement with other shareholders in or members of that enterprise, a majority of shareholders' or members' voting rights in that enterprise.

Enterprises having any of the relationships referred to in points (a) to (d) through one or more other enterprises shall also be considered to be a single Undertaking.

**An enterprise** is considered to be any entity engaged in an economic activity, irrespective of its legal form. This includes, in particular, self-employed persons and family businesses engaged in craft or other activities, and partnerships regularly engaged in an economic activity.

Enterprises which have one or other of such relationships through a natural person or group of natural persons acting jointly are also considered linked enterprises if they engage in their activity or in part of their activity in the same relevant market or in adjacent markets.

An '**adjacent market**' is considered to be the market for a product or service situated directly upstream or downstream of the relevant market.

**Crafts** means an art, skill, or trade, practised by a person or persons in the manufacture of artefacts and other products and generally requiring in its manufacturing a greater input of human skill than of machinery.

**Assets** refer to **tangible assets** meaning assets consisting of equipment and **intangible assets** meaning assets that do not have a physical or financial embodiment such as patents, licences, know-how or other intellectual property.

**Marketing of agricultural products** means holding or display with a view to sale, offering for sale, delivery or any other manner of placing on the market, except the first sale by a primary producer to resellers or processors and any activity preparing a product for such first sale; a sale by a primary producer to final consumers shall be considered to be marketing if it takes place in separate premises reserved for that purpose.

**Primary agricultural production** means production of products of the soil and of stock farming, listed in Annex I to the Treaty, without performing any further operation changing the nature of such products.

**Processing of Agricultural products** means any operation on an agricultural product resulting in a product which is also an agricultural product, except on-farm activities necessary for preparing an animal or plant product for the first sale.

**Agricultural product** means the products listed in Annex I to the Treaty, except fishery and aquaculture products falling within the scope to Regulation (EU) No 1379/2013 of the European Parliament.

**Fishery and Aquaculture sector**, are defined as per provisions of Regulation (EU) No 1379/2013 of the European Parliament.

Pollution prevention and control to air, water and land; The protection and restoration of biodiversity and ecosystems.

It should be noted that the 'Do No Significant Harm Assessment carried out in relation to the ERDF/CF Programme and JTF Plan 2021 2027' concluded that this measure will not have a significant impact on any of the environmental objectives and therefore does not require a substantive assessment.

If clarifications are required, the auditors will seek feedback from both the IB and the beneficiary. The beneficiary is obliged to co-operate and provide the requested feedback, data, and information by the indicated deadlines and without undue delays.

#### 7.3 Irregularities

Irregularities may be identified during different stages of the operation because of the different checks and audits carried out by different bodies, including the beneficiary. The Beneficiary is responsible to **report** any irregularity detected **without delay** to the IB.

#### 7.4 Financial Recovery and Correction

In those instances where an irregularity necessitates the recovery of funds, the individual/organisation that identified the irregularity must ensure that the recovery procedures are initiated immediately.

It is pertinent to note that failure to apply rules and regulations can result in irregularities which in turn could result to financial corrections, which in certain cases may lead to a recovery of up to 100% of the payment. The applicable recovery rates will be determined in line with the guidelines issued by the European Commission and in terms of State Aid Regulations.

## 8 Information and Publicity

Beneficiaries are to seek the guidance of the IB prior to embarking on publicity and visibility actions. Failure to fully comply with the visibility and publicity requirements will result in financial corrections and loss of funds. The beneficiary is responsible to keep evidence of compliance such as copies of printed documentation, photographic evidence of participation at fairs, and of any commemorative publicity and posters affixed throughout the implementation of the project.
