Update on the Enabling Conditions for the HOME Funds

Monitoring Committee
3rd October 2025

Co-funded by
the European Union

Enabling Conditions

- As stipulated in Article 40(1) of the Common Provisions Regulation, the Monitoring Committee shall examine the fulfilment of Enabling Conditions and their application throughout the programming period.
- The Strategy & Programming Unit, within the SID, takes on the role of monitoring the fulfilment of the Enabling Conditions.
- **No changes** to be reported on since the last Monitoring Committee, with all Enabling Conditions being **fulfilled**.

Enabling Conditions – Monitoring

- SID has recently **introduced a new online tool** to monitor the Enabling Conditions more effectively and efficiently.
- This tool is now **fully integrated into the Structural Funds Database** and has successfully passed all internal testing, including trials on the live environment.
- Over the summer period, a pilot exercise was carried out whereby selected ministries were given the opportunity to test the system in real conditions.
- In the upcoming days, applicable Ministries will be asked to **confirm the contact points** for each enabling condition.
- A comprehensive **training session** for all users is planned to take place during Q4 2025/Q1 2026. This will include the introduction of user-friendly guidelines, integrated within the system to support smooth and effective adoption of the tool.
- The full roll-out (operational) of the tool is foreseen by **Q2 2026**.
